AC-MWSM8EBFY-ASM

Semi-Recessed Bottle Filler units offer refrigerated drinking water with automatic, hands-free dispensing mechanisms. Featuring a 100-micron strainer to stop particles entering the lead-free waterway and a heavy-duty galvanised steel frame making the unit extra durable. Perfect for high volume applications. All refrigerated fountains use R-134a refrigerant and have an efficient, high-performing refrigeration system.

All Oasis bottle fillers are made with proprietary Freshfield technology. Freshfield harnesses the natural bacteria-fighting power of silver by infusing it into a poly compound on moulded parts of the alcoves.
